PROFILE

A relationship-centered professional with 15+ years of client-facing experience and 9 years of operations management, now amplified by a Web & Mobile App Development diploma from Vancouver Island University. Bridges the gap between business needs and technical execution, equally comfortable gathering requirements from stakeholders, documenting complex processes, coordinating cross-functional projects, and supporting technology adoption. Brings a growth mindset, strong communication skills, and a proven ability to learn new systems quickly and contribute from day one.

TECHNICAL SKILLS

Business Analysis & Documentation: Requirements Gathering, Process Documentation, User Stories, Use Cases, Wireframing, Figma, Lucidchart, Miro, Microsoft Office Suite

Project Management: Agile, Scrum, Kanban, Sprint Planning, SDLC, CI/CD Pipelines

Testing & QA: UAT, Jest, Playwright, Cucumber BDD, Manual Testing

Tools & Platforms: GitHub, Postman, VS Code, Microsoft Azure, AI-Assisted Workflow & Productivity

Front-End: HTML, CSS, JavaScript, React.js

KEY TRANSFERABLE SKILLS

- Actively listens to fully understand questions and communicates answers clearly across technical and non-technical audiences
- Applies a user-centric focus to translate abstract or complex concepts into simple, accessible language
- Analytical with strong attention to detail when troubleshooting, debugging, and documenting issues
- Creates experiential learning opportunities to connect concepts to real-world situations or projects
- Adjusts communication and training methods to meet diverse needs, reduce friction, and maximize outcomes
- Inspires ongoing learning through positive leadership, mentoring, and collaborative team environments

EDUCATION
